Perfection V19

DATASHEET / BROCHURE

Capture, store and share your images and documents quickly and easily with this stylish new compact scanner for the home and office

This easy-to-use, USB-powered scanner has a new sleek and space-saving design. An integrated stand allows for added flexibility as the scanner can be used flat as well as on its side to help save desk space. With 4800dpi and fast scan speeds, the V19 will produce high-quality results quickly. You can easily store and share your photos online by scanning straight to Facebook and Picasa.

Ultra-compact and tidy
The V19's power and connectivity is handled via a single Micro USB to reduce cable clutter and keep your workspace tidy. The device also has a built-in stand for flexible scanning to suit your desk space.

Fast, high-quality results
Thanks to Epson's ReadyScan LED Technology, you can start scanning instantly - no warm-up time is required. Make sure that even your old photos look their best with Epson Easy Photo Fix software, which improves the quality of your scans by removing dust, restoring faded colours and correcting backlight. Even your scanned documents will look great as the V19 comes with a range of enhancement features, enabling you to improve text sharpness and remove unwanted 'bleed-through' from double-sided documents.

Convenient
To make scanning quick and easy, the V19 has four one-touch buttons so you can scan, copy, share and turn your photos and documents into multi-page searchable PDFs[1] at the push of a button. You can even assign customised scanning jobs to all four buttons to save your settings, such as resolution, format and save location, to make regular repetitive scanning tasks quicker. For added versatility, a fully-detachable lid makes scanning of thick books, photo albums and other bound items possible. You can also easily share your photos with family and friends by scanning straight to Facebook and Picasa.

KEY FEATURES

- **High resolution 4800dpi scanning**
  Produce high-quality photo and document scans
- **Power and connectivity via Micro USB**
  No need for mains powered ac adapter or separate power cable
- **Integrated stand for upright scanning**
